XEROX	Mater	ial Safety Data Sheet	MSDS No Date: Revision:	5/22/07				
Manufacturer: Xerox Corporation Telephone # (s): Rochester, NY 14644 Telephone # (s):			Safety Information: (800) 828-6571 Health Emergency: (585) 422-2177 Transportation Emergency (Chemtrec): (800) 424-9300					
Section I - Product Identification								
Trade Names/Synor	nyms: Color Laser Jet 1500/2: Cartridge	500/2550/2800 Black Compati	patible Part No.: 6R1285					
WHMIS Status: This is not a WHMIS controlled product								
	Ingredients (% by wt.) Resin (70-95%) Polyethylene wax (5-10%) Carbon black (5-10%)	6)	<u>CAS No.</u> 292629-36-8 9002-88-4 1333-86-4					
Section II - Emergency and First Aid								
 Primary Route of Entry: Inhalation Eyes: Flush with water. Skin: Wash with soap and water. Inhalation: Remove from exposure. Ingestion: Dilute stomach contents with several glasses of milk or water 		Minimal respirator exposure to large a Medical Condition None when used as Additional Inform None. or water.						
Section III - Toxicology and Health Information								
The toxicity data noted below is based on the test results of this toner or sinOral LD50:>5 g/kg (rats) practically non-toxic.Dermal LD50:>5 g/kg (rabbits) practically non-toxic.Inhalation LC50:>5 mg/l (rats, 4 hr exposure)practically non-toxic.20 mg/l (calculated 1 hr exposure) non-poisonous,Eye Irritation:Not an irritantSkin Sensitization:Not a sensitizer.Skin Irritation:Not an irritant			prographic mater TLV: PEL: STEL: Ceiling: XEL ¹ :	<i>ials:</i> 10 mg/m ³ (inhalable particles) 3 mg/m ³ (respirable particles) 15 mg/m ³ (total dust) 5 mg/m ³ (respirable dust) Not established 2.5 mg/m ³ (total dust) 0.4 mg/m ³ (consistent and and)				

Mutagenicity:No mutagenicity detected in Ames assay.Carcinogens:None present

Aquatic LC₅₀: >1000 mg/l (fathead minnows) non-toxic.

Non-irritating, non-sensitizing

Additional Information: The results obtained from a Xerox sponsored Chronic Toner Inhalation Study demonstrated no lung change in rats for the lowest (1 mg/m^3) exposure level (the level most relevant to potential human exposure). A very slight degree of fibrosis was noted in 25% of the animals at the middle (4 mg/m^3) exposure level, while a slight degree of fibrosis was noted in all the animals at the highest (16 mg/m^3) exposure level. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged period. This study was conducted using a special test toner to comply with EPA testing protocol. The test toner was ten times more respirable than commercially available Xerox toner, and would not be functionally suitable for Xerox equipment.

 0.4 mg/m^3 (respirable dust)

¹XEL-Xerox Exposure Limit

Human Patch:

XEROX

Section IV - Physical Data							
Boiling Point:Not applSolubility in Water:NegligibEvaporation Rate:Not applVapor Density (Air=1):Not appl		ole licable	Softening Range: Melting Point: Specific Gravity (H ₂ O=1): Vapor Pressure (mm Hg): pH: ole % (Vol.)	120°F - 140°F N.D. ~1 Not applicable Not applicable			
Section V - Fire and Explosion Data							
Flash Point (Method Used): Flammable Limits: NFPA 704: Extinguishing Media: Special Fire Fighting Procedures: Fire and Explosion Hazards:		Not applicable LEL: Not applicable, UEL: Not applicable Consumer Use and Storage ("Cartridge" / "Bottle") Health -0, Fire -1, Reactivity – 0 <i>Avoid direct stream</i> gently apply water mist, water fog, or foam. Avoid inhalation of smoke. Wear protective clothing and self-contained breathing apparatus. Toner is a combustible powder. Like most organic materials in powder form, it can form explosive mixtures when dispersed in air.					
Section VI -Reactivity Data							
Stability: Hazardous Polymerization: Hazardous Decomposition Products: Incompatibility (Materials to Avoid):							
Section VII - Special Protection Information							
			ed in Xerox equipment.				
Section VIII - Special Precautions							
Handling and Storage:Keep container tightly closed.Conditions to Avoid:Avoid prolonged inhalation of excessive dust.							
Section IX- Spill, Leak, and Disposal Procedures							
to minimize generation of dust duri <i>tight</i> . A conductive hose bonded to			and carefully transfer into sealable waste container. Sweep slowly ng clean up. If a vacuum is used, the motor must be rated as <i>dust</i> the machine should be used to reduce static buildup (See Section pap and cold water. Garments may be washed or dry-cleaned,				
State and Local requirements may,		ste according to Federal Regulation 40 CFR 261 when disposed. however, be more restrictive. Consult with the appropriate State s for additional information. Incinerate only in a closed					
Section X - Transportation Information							

Section X - Transportation Information This product is <u>not</u> regulated as a hazardous material
