

Safety Data Sheet

# SDS #: A-10050 Toner - Black, Cyan. Magenta, Yellow

Issuing Date 2013-07-10 Revision Date 2013-07-10 Version 1

1. Product and Company Identification

Trade Name: Toner for Color LaserJet CM4540 MFP

Part No. 006R03004, 006R03005, 006R03006, 006R03007

Color Black, Cyan, Magenta, Yellow

Pure substance/preparation Preparation

Identified uses Xerographic printing

Manufactured by: Xerox Corporation Webster, NY 14580

Emergency telephone Safety Information (800)828-6571

Health Emergency (585)422-2177

Chemical Emergency only (Chemtrec) (800)424-9300 (703)527-3887 (collect outside the US or Canada)

### 2. Hazards Identification

### **Emergency Overview**

The product contains no substances which, in the form utilized and at their given concentrations, are considered to be hazardous to health.

Color	Appearance	Physical state	Odor	
Black, Cyan, Magenta, Yellow	Powder	Solid	Faint	

**Potential Health Effects** 

Principle Routes of Exposure Inhalation

**Acute toxicity** 

EyesNo known effectSkinNo known effectInhalationNo known effectIngestionNo known effect

**Chronic effects** 

Chronic toxicity No known effects under normal use conditions. Repeated or prolonged inhalation may

cause irritation of the respiratory tract as can occur with the inhalation of any non-toxic dust. Minimum respiratory or eye irritation may occur as with exposure to large amounts of

any non-toxic dust

Main symptoms Overexposure may cause:

mild respiratory irritation similar to nuisance dust

Aggravated Medical Conditions None under normal use conditions

Environmental hazard See Section 12 for additional Ecological Information

Risk Phrases None required

Page 2/7

### 3. Composition/Information on Ingredients

Chemical Name	CAS-No	Weight %
Styrene acrylate copolymer	PROPRIETARY	70-90
Wax	PROPRIETARY	5-15
Color Pigments	Proprietary	3-10
Carbon Black	1333-86-4	3-10
Amorphous silica	7631-86-9	<5
Titanium dioxide	13463-67-7	<1

#### 4. First Aid Measures

General advice For external use only. When symptoms persist or in all cases of doubt seek medical advice.

Show this material safety data sheet to the doctor in attendance.

Eye contact Immediately flush with plenty of water. After initial flushing, remove any contact lenses and

continue flushing for at least 15 minutes

**Skin contact** Wash skin with soap and water

**Inhalation** Move to fresh air

**Ingestion** Rinse mouth with water and afterwards drink plenty of water or milk

Notes to physician Treat symptomatically

**Protection of first-aiders**No special protective equipment required.

### Fire-Fighting Measures

Flammable properties Not flammable. Will not readily ignite

Flash point Not applicable

Suitable extinguishing mediaUse water spray or fog; do not use straight streams, FoamUnsuitable extinguishing mediaDo not use a solid water stream as it may scatter and spread fire

Hazardous combustion products

Hazardous decomposition products due to incomplete

combustion, Carbon oxides, Nitrogen oxides (NOx)

**Explosion Data** 

Sensitivity to Mechanical Impact Not impact sensitive

Sensitivity to Static Discharge Fine dust dispersed in air, in sufficient concentrations, and in the

presence of an ignition source is a potential dust explosion

hazard

### Specific hazards arising from the chemical

Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard

#### **Protective Equipment and Precautions for Firefighters**

In the event of fire and/or explosion do not breathe fumes. Wear fire/flame resistant/retardant clothing. Use self-contained pressure-demand breathing apparatus if needed to prevent exposure to smoke or airborne toxins.

Page 3/7

**NFPA 704** 

Consumer use **Health Hazard Flammability** Stability Special hazard None 0 **Flammability** Stability Special hazard **Bulk packages Health Hazard** 0 3 0 None

#### 6. Accidental Release Measures

Personal Precautions Avoid breathing dust.

Environmental Precautions No special environmental precautions required

Methods for containment Prevent dust cloud

Methods for cleaning up Prevent dust cloud. Sweep up or vacuum up spillage and collect in suitable container for

disposal. Use non-sparking tools and equipment.

**Other Information** See Section 12 for additional information.

### Handling and Storage

Advice on safe handling Handle in accordance with good industrial hygiene and safety practice

Prevent dust cloud

**Technical measures/Storage** 

conditions

Keep container tightly closed in a dry and well-ventilated place

Store at room temperature

**Hygiene measures** None under normal use condtions

Industrial User Do not eat, drink or smoke when using this product

Wash hands before eating, drinking, chewing gum, using tobacco, or using toilet

Wash hands before breaks and at the end of workday

Provide regular cleaning of equipment, work area and clothing.

### 8. Exposure Controls/Personal Protection

### **Exposure guidelines**

### **Product information**

ACGIH TLV TWA

ACGIH TLV TWA

3 mg/m³ (respirable dust)

OSHA PEL TWA

OSHA PEL TWA

Serox Exposure Limit

Xerox Exposure Limit

10 mg/m³ (inhalable particles)

3 mg/m³ (respirable dust)

5 mg/m³ (respirable dust)

2.5 mg/m³ (total dust)

0.4 mg/m³ (respirable dust)

#### Other Information

The results obtained from a Xerox sponsored Chronic Toner Inhalation Study demonstrated no lung changes in rats for the lowest (1 mg/m³) exposure level (the level most relevant to potential human exposure). A very slight degree of fibrosis was noted in 25% of animals at the middle (4mg/m³) exposure level, while a slight degree of fibrosis was noted in all the animals at the highest (16 mg/m³) exposure level. These findings are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged period. This study was conducted using a special test toner to comply with an EPA testing protocol.

Page 4/7

# **Biological standards**

This product, as supplied, does not contain any hazardous materials with biological limits established by the region specific regulatory bodies

# Occupational Exposure Controls

**Engineering measures** None under normal use conditions.

Industrial use Avoid dust formation

Ensure all equipment is electrically grounded before beginning transfer operations

Provide appropriate exhaust ventilation at places where dust is formed

# **Personal Protective Equipment**

**Consumer use** These recommendations apply to the product as supplied

**Respiratory protection** No special protective equipment required.

**Eye/Face protection** No special protective equipment required.

**Skin and body protection** No special protective equipment required.

Hand protection No special protective equipment required

**Industrial use** In case of insufficient ventilation:

Wear protective eyewear (goggles)

Effective dust mask

#### 9. Physical and Chemical Properties

AppearancePowderOdorFaintOdor thresholdNot applicablePhysical stateSolid

OH Not applicable Color Black, Cyan , Magenta, Yellow

Flash point Not applicable Boiling Not applicable

point/range

Softening point 49 - 60 °C / 120 - 140 °F Autoignition Not applicable

temperature

Flammability Limits in Air Not applicable

**Explosive properties** Fine dust dispersed in air, in sufficient concentrations, and in the presence of an ignition

source is a potential dust explosion hazard

Not applicable Vapor pressure Vapor density Not applicable Water solubility Negligible Viscosity Not applicable Partition coefficient Not applicable **Evaporation rate** Not applicable Melting point/range Not determined Freezing point Not applicable

Specific gravity ~ 1

Page 5/7

# 10. Stability and Reactivity

**Reactivity**No dangerous reaction known under conditions of normal use

Stability Stable under normal conditions

Incompatible products None

Conditions to Avoid Prevent dust cloud, Fine dust dispersed in air, in sufficient concentrations, and in the

presence of an ignition source is a potential dust explosion hazard

Hazardous Decomposition Products None under normal use

Hazardous polymerization Hazardous polymerization does not occur

Hazardous reactions None under normal processing

### 11. Toxicological Information

The toxicity data noted below is based on the test results of similar reprographic materials.

### Acute toxicity

**Product information** 

Irritation No skin irritation, No eye irritation

 LD50 Oral:
 > 5 g/kg (rat)

 LD50 Dermal:
 > 5 g/kg (rabbit)

 LC50 Inhalation:
 > 5 mg/L (rat, 4 hr)

EyesNo known effectSkinNo known effectInhalationNo known effectIngestionNo known effect

Chronic toxicity
Product information

Chronic effects 
No known effects under normal use conditions. Repeated or prolonged inhalation may

cause irritation of the respiratory tract as can occur with the inhalation of any non-toxic dust. Minimum respiratory or eye irritation may occur as with exposure to large amounts of

any non-toxic dust.

Main symptoms Overexposure may cause:

mild respiratory irritation similar to nuisance dust

**Aggravated Medical Conditions** None under normal use conditions **Carcinogenicity** See "Other Information" in this section.

Chemical Name	IARC	NTP
Carbon Black	2B	
Titanium dioxide	2B	

### Other toxic effects

**Product information** 

Sensitization No sensitization responses were observed

Mutagenic effects Not mutagenic in AMES Test

Target organ effects None known

Page 6/7

Other adverse effects None known
Aspiration Hazard Not applicable

#### Other information

The IARC (International Agency for Research on Cancer) has listed carbon black as "possibly carcinogenic to humans". The classification is based on studies evaluating pure, "free" carbon black. In contrast, toner is a formulation composed of specially prepared polymer and a small amount of carbon black (or other pigment). In the process of making toner, the small amount of carbon black becomes encapsulated within a matrix. Xerox has performed extensive testing of toner, including a chronic bioassay (test for potential carcinogenicity). Exposure to toner did not produce evidence of cancer in exposed animals. The results were submitted to regulatory agencies and published extensively

The IARC (International Agency for Research on Cancer) has listed titanium dioxide as "possibly carcinogenic to humans". The classification is based on studies in rats using pure, unbound TiO2. Based on the review of available study results, when this product is used as intended, Xerox has concluded that the presence of titanium dioxide in this mixture does not present an increased risk of lung cancer or chronic respiratory disease.

### 12. Ecological Information

### **Ecotoxicity**

The environmental impact of this product has not been fully investigated. However, this preparation is not expected to present significant adverse environmental effects.

#### 13. Disposal Considerations

**Waste Disposal Methods** 

This material, as supplied, is not a hazardous waste according to Federal regulations (40 CFR 261). This material could become a hazardous waste if it is mixed with or otherwise comes in contact with a hazardous waste, if chemical additions are made to this material, or if the material is processed or otherwise altered. Consult 40 CFR 261 to determine whether the altered material is a hazardous waste. Consult the appropriate state, regional, or local regulations for additional requirements

Contaminated packaging

Dispose of in accordance with local regulations.

### 14. Transport Information

Note

This material is not subject to regulation as a hazardous material for shipping.

#### 15. REGULATORY INFORMATION

# International Inventories

TSCA Complies
DSL/NDSL Complies

#### U.S. Federal Regulations

### **SARA 313**

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and Title 40 of the Code of Federal Regulations, Part 372. **SARA 311/312 Hazard Categories** 

Page 7/7

Acute Health HazardNoChronic Health HazardNoFire HazardNoSudden Release of Pressure HazardNoReactive HazardNo

#### **Clean Water Act**

This product is not regulated as a pollutant pursuant to the Clean Water Act (40 CFR 122.21 and 40 CFR 122.42).

### Clean Air Act, Section 112 Hazardous Air Pollutants (HAPs) (see 40 CFR 61)

This product is not regulated as a hazardous air pollutant (HAPS) under Section 112 of the Clean Air Act Amendments of 1990.

#### **CERCLA**

This material, as supplied, does not contain any substances regulated as hazardous substances under the Comprehensive Environmental Response Compensation and Liability Act (CERCLA) (40 CFR 302) or the Superfund Amendments and Reauthorization Act (SARA) (40 CFR 355). There may be specific reporting requirements at the local, regional, or state level pertaining to releases of this material.

#### **TSCA**

TSCA 12b does not apply to this product.

### **U.S. State Regulations**

### **California Proposition 65**

Carbon black is regulated under California Proposition 65 only if in the form of "airborne, unbound particles of respirable size". Toner products do not contain carbon black in the form of "airborne, unbound particles of respirable size". Therefore, the requirements of Proposition 65 do not apply to this product.

Chemical Name	CAS-No	California Prop. 65
Carbon Black	1333-86-4	Carcinogen
Titanium dioxide	13463-67-7	Carcinogen

#### U.S. State Right-to-Know Regulations

Although this product contains substances included in some U.S. State Right-to-Know regulations, the particles are bound in a unique matrix and, therefore, the product does not pose any specific hazard.

Note The toxicity data noted below is based on the test results of similar reprographic materials.

#### Canada

This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the CPR.

#### **WHMIS Hazard Class**

Not subject to WHMIS classification
