

1. Product and Company Identification

| HP Color LaserJet CE260A-X-XC Black Print Cartridge |
|--|
| This product is a black toner preparation that is used in HP Color LaserJet CP4525, CP4025, CP |
| 01 |
| 07-Apr-2011 |
| Hewlett-Packard Company 3000 Hanover Street Palo Alto, CA 94304-1185 United States Telephone 650-857-1501 Hewlett-Packard health effects line (Toll-free within the US) 1-800-457-4209 (Direct) 1-503-494-7199 HP Customer Care Line (Toll-free within the US) 1-800-474-6836 (Direct) 1-208-323-2551 Email: hpcustomer.inguiries@hp.com |
| |

2. Hazards Identification

| Acute health effects | |
|--------------------------|---|
| Skin contact | Unlikely to cause skin irritation. |
| Eye contact | May cause transient slight irritation |
| Inhalation | Minimal respiratory tract irritation may occur with exposure to large amounts of toner dust. Use of this product as intended does not result in inhalation of excessive amounts of dust. |
| Ingestion | Low acute toxicity. Ingestion is a minor route of entry for intended use of this product. |
| Potential health effects | |
| Routes of exposure | Potential routes of exposure under normal use conditions are skin, eye contact and inhalation. |
| | Ingestion is not expected to be a primary route of exposure for this product under normal use conditions. |
| Chronic health effects | Prolonged inhalation of excessive amounts of any dust may cause lung damage. Use of this product as intended does not result in inhalation of excessive amounts of dust. |
| Carcinogenicity | Carbon black is classified by the IARC as a Group 2B carcinogen (the substance is possibly carcinogenic to humans). Carbon black in this preparation, due to its bound form, does not present this carcinogenic risk. |
| | Titanium dioxide is classified by the IARC as a Group 2B carcinogen (the substance is possibly carcinogenic to humans). The IARC classification was based on high concentrations of titanium dioxide particles in animal lungs. Under intended use of this toner product, exposure to titanium dioxide is much lower. |
| Other information | This product is not classified as hazardous according to OSHA CFR 1910.1200 or EU Directive 1999/45/EC, as amended. |
| | This preparation contains no component classified as Persistent, Bioaccumulative, and Toxic (PBT) or very Persistent and very Bioaccumulative (vPvB) as defined under Regulation (EC) 1907/2006. |

3. Composition / Information on Ingredients

| Components | CAS # | Percent |
|----------------------------|--------------|---------|
| Styrene acrylate copolymer | Trade Secret | < 85 |
| Carbon black | 1333-86-4 | < 10 |

| Wax | Trade Secret | < 10 | |
|------------------|--------------|------|--|
| Amorphous silica | 7631-86-9 | < 3 | |
| Titanium dioxide | 13463-67-7 | < 1 | |

4. First Aid Measures

| First aid procedures | |
|---|---|
| Eye contact | Do not rub eyes. Immediately flush with large amounts of clean, warm water (low pressure) for at least 15 minutes or until particles are removed. If irritation persists, consult a physician. |
| Skin contact | Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation develops or persists. |
| Inhalation | Move person to fresh air immediately. If irritation persists, consult a physician. |
| Ingestion | Rinse mouth out with water. Drink one to two glasses of water. If symptoms occur, consult a physician. |
| 5. Fire Fighting Measures | 5 |
| Flammable properties | Like most organic material in powder form, toner can form explosive dust-air mixtures when finely dispersed in air. |
| Extinguishing media | |
| Suitable extinguishing media | CO2, water, or dry chemical |
| Unsuitable extinguishing media | None known. |
| Protection of firefighters | |
| Protective equipment and precautions for firefighters | If fire occurs in the printer, treat as an electrical fire. |
| Specific methods | None established. |
| Hazardous combustion products | Carbon monoxide and carbon dioxide. |
| 6. Accidental Release Me | asures |
| Personal precautions | Minimize dust generation and accumulation. |
| Environmental precautions | Do not flush into surface water or sanitary sewer system. See also section 13 Disposal considerations. |
| Other information | Slowly vacuum or sweep the material into a bag or other sealed container. Clean remainder with a damp cloth or vacuum cleaner. If a vacuum is used, the motor must be rated as dust explosion-proof. Fine powder can form explosive dust-air mixtures. Dispose of in compliance with federal, state, and local regulations. |
| 7. Handling and Storage | |
| Handling | Keep out of the reach of children. Avoid inhalation of dust and contact with skin and eyes. Use with adequate ventilation. Keep away from excessive heat, sparks, and open flames. |
| Storage | Keep out of the reach of children. Keep tightly closed and dry. Store away from strong oxidizers. Store at room temperature. |

8. Exposure Controls / Personal Protection

Occupational exposure limits

| VOC | Not available. | | | |
| Other information | Decomposition tem | perature: > 200 ° C | | |

10. Chemical Stability & Reactivity Information

Chemical stability

Stable under normal storage conditions.

| Conditions to avoid Incompatible materials | | | |
|---|---|--|--|
| | Imaging Drum: Exposure to light Strong oxidizers | | |
| Hazardous decomposition | Carbon monoxide and carbon dioxide. | | |
| products | | | |
| Possibility of hazardous reactions | Will not occur. | | |
| 11. Toxicological Inform | nation | | |
| Oral toxicity | LD50/oral/rat >2000 mg/kg; (OECD 401); Not harmful Not classified for acute oral toxicity according to EU Directive 67/548/EEC and 1999/45/EC. | | |
| Carcinogenicity | Carbon black is classified as a carcinogen by the IARC (possibly carcinogenic to humans, Gro 2B) and by the State of California under Proposition 65. In their evaluations of carbon black, both organizations indicate that exposure to carbon black, per se, does not occur when it remains bound within a product matrix, specifically, rubber, ink, or paint. Carbon black is present only in a bound form in this preparation. | | |
| | Titanium dioxide is classified by the IARC as a Group 2B carcinogen (the substance is possibl carcinogenic to humans). The IARC classification was based on high concentrations of titaniu dioxide particles in animal lungs. Under intended use of this toner product, exposure to titanium dioxide is much lower. | | |
| | None of the other ingredients in this preparation are classified as carcinogens according to ACGIH, EU, IARC, MAK, NTP or OSHA. | | |

| Other adverse effects | This product has not been tested for ecological effects. |

| 13. Disposal Considerati | ions |
|---|---|
| Disposal instructions | Do not shred toner cartridge, unless dust-explosion prevention measures are taken. Finely dispersed particles may form explosive mixtures in air. Dispose of in compliance with federal, state and local regulations. |
| | HP's Planet Partners (trademark) supplies recycling program enables simple, convenient recycling of HP original inkjet and LaserJet supplies. For more information and to determine if this service is available in your location, please visit http://www.hp.com/recycle. |
