Immediately flush with large amounts of clean, warm water (low pressure) for at Eye contact least 15 minutes or until particles are removed. If irritation persists, consult a physician. Skin contact Wash affected areas thoroughly with mild soap and water. Get medical attention if irritation develops or persists. Inhalation Move person to fresh air immediately. If irritation persists, consult a physician. Ingestion Rinse mouth out with water. Drink one to two glasses of water. If symptoms occur, consult a physician. 5. Fire Fighting Measures Flammable properties Like most organic material in powder form, toner can form explosive dust-air mixtures when finely dispersed in air. **Extinguishing media** Suitable extinguishing CO2, water, or dry chemical media Unsuitable extinguishing None known. media **Protection of firefighters Protective equipment** If fire occurs in the printer, treat as an electrical fire. and precautions for firefighters **Specific methods** None established. Hazardous combustion Carbon monoxide and carbon dioxide. products 6. Accidental Release Measures **Personal precautions** Minimize dust generation and accumulation. **Environmental precautions** Do not flush into surface water or sanitary sewer system. See also section 13 Disposal considerations. Other information Slowly vacuum or sweep the material into a bag or other sealed container. Clean remainder with a damp cloth or vacuum cleaner. If a vacuum is used, the motor must be rated as dust explosion-proof. Fine powder can form explosive dust-air mixtures. Dispose of in compliance with federal, state, and local regulations. 7. Handling and Storage Handling Keep out of the reach of children. Avoid inhalation of dust and contact with skin and eyes. Use with adequate ventilation.
